TRAGEDY OVER A WOMAN

A DESPERATE AFFRAY BETWEEN THREE MEN NEAR AURORA, MO.

ONE OF THE MEN DEAD.

The Two Others Are Seriously Wounded. One of Whom Will Die—The Trouble Was All on Account of Louis Jones' Daughter Sarah, Who Was in Love With the Dead Man.

AURORA, Mo., Oct. 14.—There was a quarrel in the Jones family here yesterday afternoon and the result is a tragedy. Louis Jones, a young man, was killed and his daughter Sarah, who was in love with him, was seriously wounded. The trouble occurred at 5 o'clock.

Alexander had become enamored of Jones' daughter Sarah, a married woman, but who had left her husband, and was in love with Alexander. A few weeks ago she left her parents' home and went to live with her lover's father and mother, but returned yesterday afternoon in company with Alexander for the purpose of getting her clothes. Then there was a stormy time.

After entering the house the woman's parents refused to let her have her clothes, and endeavored to keep her from departing with Alexander. The old man and son, however, got into the yard, and the former endeavored to assist her in making her escape. Resulting in a fight with Jones and his son, and during which Alexander drew a revolver and shot Tom and his father, the bullet entering the son's body in front just below the ribs on the right side, and coming out at the back, while the old man was shot in the mouth, knocking all of his teeth out on the left side.

He spit out his teeth and the bullet, but before doing so, he received a second shot from Alexander twice, the first bullet entering the left side of the neck, and the second penetrating the forehead just above the temple and entering the brain. Alexander is dead, while Jones' son is in a most critical condition.

MURDERED AND BURNED.

Shocking Discovery in Livingston County, Mo., of a Terrible Crime.

CHILLICOTHE, Mo., Oct. 14.—Yesterday morning S. H. Patterson, twelve miles south of here, arose to find eight haystacks about one mile from his residence had been burned during the night, and going to the meadow he discovered the charred remains of a human being lying between two of the stacks that were yet burning. The coroner was sent for, who found that it was a clear case of murder. Two bullet holes were found in the head and one bullet was extracted. The remains were those of a young man, about 25 years of age. The affair is shrouded in mystery, as no one is missing in this vicinity.

The Big Fight Will Be Fought Off as a Boxing Exhibition.

Hot Springs, Ark., Oct. 14.—The big contest will take place in Hot Springs October 21. In order to comply strictly with the laws of Arkansas the articles of agreement of the Florida Athletic association have been changed from a finish contest to a limited number of rounds, the referee being vested with full power to stop the contest when, in his opinion, it becomes brutal, the contestants to box with soft gloves.

WASHINGTON, Oct. 14.—Admiral Carpenter, in command of the Asiatic Squadron, called to the navy department today that he had dispatched the gunboat Petrel from Chefoo to Chemulpo, the seaport nearest to Seoul, the capital of Corea. The Yorktown had already gone to Chemulpo, so that the United States will have two ships near the scene of the reported conflict.

A cable cipher from the admiral said that affairs in Seoul were in a very disturbed state and that officers of what is known as the "King's party" had taken refuge in the United States legation building. It was reported, the admiral went on, that the queen of Corea had been assassinated. At the urgent demand of the United States charge d'affaires at Seoul the marine guard of the cruiser Yorktown was sent to Seoul for the protection of the legation and American interests generally.

CARROLLTON INCENSED.

A Brutal Assault on a Young Woman May End in a Lynching.

CARROLLTON, Mo., Oct. 14.—Yesterday afternoon about 4 o'clock, Miss Lena Bratvogel, while on her way home near her father's place, was assaulted by a young negro at a lonely spot on the road and insulted by him. The girls started to run, when the negro caught Miss Bratvogel, dragged her into a cornfield and brutally assaulted her. Her father, who was in the neighborhood, saw the assault, and ran toward the place, but the negro managed to escape.

Calhoun took the girl home and then called to town and gave the alarm. The girl was immediately taken to the hospital, and her father has arrested four young negroes. The people are deeply incensed, and it is feared that a lynching will result.

OVER A FORTY FOOT BANK

FEARFUL PLUNGE OF A FREIGHT TRAIN IN CONNECTICUT.

WAS A LIVE STOCK TRAIN.

Marepa, the Famous Trick Horse, Valued at \$40,000, Instantly Killed—Two Sections Come Together With a Tremendous Crash—Three People Killed in an Electric Car Accident.

WATSONVILLE, Conn., Oct. 14.—A serious freight wreck occurred here last night, when two parts of a broken train came together. Ten cars loaded with trotting horses, live stock and other exhibits from the Danbury fair, which closed last week, were crushed and thrown down a forty-foot embankment. Marepa, the famous trick horse of the world, valued at \$40,000, was instantly killed. Two sections came together with a tremendous crash—three people killed in an electric car accident.

The train, which was a long one, was made up of Danbury. When about a mile from the city it parted in the middle and the two sections came together again with a tremendous crash, which near the center of the city. Cars were splintered and piled up in every direction. Ten of them fell in fragments to the bottom of a forty-foot embankment. The remaining Marepa was reduced to kindling wood. He was owned by H. D. Maguire of Boston. The groom, Harry Thompson, had a miraculous escape from death. He was pinned under a portion of the wreck for ten minutes and had to be cut out with saws and axes.

VEST TALKS FOR SILVER.

The Senator Stands Up for the Free Coinage Views.

FAYETTE, Mo., Oct. 14.—Senator Vest addressed about 2,000 people in the opera house here Saturday afternoon. Fully 5,000 people assembled to hear him, but no building in the city was large enough to accommodate them all. After being introduced by Colonel W. E. Switzer of the Booneville Democrat, he began as follows: "The weakness of any cause is demonstrated by a resort to falsehood and misrepresentation. When I returned from Europe where I had gone for rest and to regain my health, I was confronted by the statement in the New York papers that I had changed my position on the silver question and had joined the single gold standard party. The statement was absolutely false and groundless. No syllable had ever fallen from my lips which justified any such charge. Instead of changing my position on silver I came back more firmly convinced than ever that the best interests of this country and the world demand the free and unlimited coinage of both gold and silver and that of this great republic, if true to the principles on which it was founded, must stand to the last extremity for bimetalism and against the single gold standard."

NEW YORK, Oct. 14.—Ex-Governor Thomas Osborne, John Guthrie, A. M. Thomas and others have interested themselves in behalf of John L. Waller, are hopeful that the petition and circular letters which have been sent broadcast through Kansas will bear good fruit and will obtain the release of the ex-convict from the prison in which he is confined. The petition is addressed to congress, and asks that an investigation be made of the cause of Waller's arrest and imprisonment by France.

HARRISON SET RIGHT.

Assertions That He Opposed the McKinley Bill While President Refuted.

CINCINNATI, Ohio, Oct. 14.—The Commercial-Gazette, a strong McKinley paper, edited by Perry S. Heath, who was close to Harrison during his administration, says: "A great deal has recently appeared respecting the attitude of President Harrison toward the McKinley tariff at the time of its adoption. It is contended that in the capacity of president General Harrison opposed the adoption of schedules as high as those in the McKinley tariff, and that he entered a protest against them to those who had the measure in charge. One prominent Republican newspaper has stated recently that the McKinley tariff defeated Harrison's re-election, and that this fact is the cause of Harrison's feeling toward McKinley." Another influential Republican newspaper has also announced that during the consideration of the McKinley bill, President Harrison summoned its author and Speaker Reed, and possibly other party leaders, and warned them against the adoption of such high figures. The Commercial-Gazette is in position to say that all such statements are untrue and misleading. Ex-President Harrison deserves neither censure nor praise on account of the McKinley tariff law. He took no part in drafting or the consideration of the measure. No feature of the law, so far as those who compiled it are aware, represented his particular views or met with his specific disapproval. Repeatedly, President Harrison, when asked by those drafting the bill what he thought of it, stated that the details should be left to those in charge of the measure; that they were responsible to the people, and were most familiar with the subjects in hand. He offered no advice. When the bill went to the White House for signature the president did not, as far as is known, show any displeasure or offer criticism. Nor did he subsequently express displeasure with the law. If he was ever held responsible for the defeat of 1892, President Harrison should stand blameless.

He Makes a Brief and Somewhat Mysterious Visit to the Metropolis.

NEW YORK, Oct. 14.—The yacht Onondaga, having on board President Cleveland, dropped anchor yesterday morning at 10 o'clock. At the pier a cab was waiting. Mr. Cleveland jumped into this alone and was driven rapidly away. It could not be learned where he went. At 4 o'clock the cab carrying Mr. Cleveland returned to the pier. The president was immediately taken on board the yacht, and she steamed out to the south. Inquiry at the principal hotels elicited no information as to where Mr. Cleveland went during his short stay in the city. The president had a healthy bronze color in his face and looked particularly well.

CHANDLER ON SILVER.

THE NEW HAMPSHIRE SENATOR MAKES BIMETALLIC PROMISES.

COMES OUT IN A LETTER.

Republicans Declared to Be Pledged to the Use of Both Gold and Silver—The Democratic Leaders Cursed as Uncompromising Gold Standard Men—Wants a Conference Called.

NEW HAMPSHIRE, Oct. 14.—In a letter to T. C. Clayton, secretary of the Republican state league of Colorado, urging Republicans of this state to stand firmly with the national organization, Senator Chandler of New Hampshire says: "The Republican party will go into the presidential battle pledged to bimetalism which I believe, as sure as right is right, will win. On the other hand the Democratic leaders—the men who dominate and control the national influence, patronage and organization—are gold monometallists. President Cleveland and his administration are absolutely in the hands of Mr. Pierpont Morgan and his syndicate of foreign bankers; they are against silver as a money metal and they are committed to gold monometallism. With the patronage of the government, with money manipulated by William C. Whitney and Calvin S. Brice the Democracy are hopelessly subjugated; and their next national convention will sit as hostile to the principles of bimetalism as are the English creditors who propose to exact the pound of flesh from their debtors in all parts of the world. It is the height of folly for any bimetalist to conceive that anything but gold monometallism can come from another Democratic national victory. We, the bimetalists outnumber the gold monometallists of the world 100 to 1, and need not fear that we will not eventually succeed. With a practical suggestion to close a bimetallic convention held in the United States will be attended by representatives from all Western hemisphere governments and from the governments of Russia, France, Japan and China. Bimetallic organizations in Canada, India and every other country will send delegates. The decision of the conference that the nations should coin silver without limit at the ratio of 15 to 1 will be irresistible, even by England and Germany. Our congress should call a conference and provide for paying its expenses."
